In the Name of the Father, Son and Holy Ghost. Amen!

This sanctuary, dedicated to the honour of our Lord Jesus Christ, the Saviour of the world, is erected on the site, formerly occupied by the church of St. Mary, belonging to the Knights Hospitallers of the order of St. John at Jerusalem. The remains of the ancient building were for centuries lying about in a heap of ruins, until in A. D. 1859 the place was presented] by the Turkish Emperor to the King of Prussia, afterwards William the Great, Emperor of Germany, and was taken possession] of in his name by the Crownprince Frederic William, afterwards the Emperor Frederic III. By command of William II, Emperor of Germany and King of Prussia, this church was erected in the years 1893-1898, and in his presence as well as of H. M. the Queen and Empress Augusta Victoria it was solemnly consecrated to the service of God on the 31st. of October 1898.

IX. Women.
*Portrait of a woman, by the same artist as the
 preceding one. She is shown in a three-quarter
 view, looking towards the left. She has dark hair
 styled in an elaborate updo, adorned with a red
 flower and a yellow flower. She is wearing a blue
 patterned garment with a yellow necklace. The
 background is a plain, light blue-grey color.*

at closing

The deity is not a god simply sitting
and seeing a human who desires that will
be fulfilling to a king or priest
(prophets of Yahweh), and even more
to the people imprisoned by tyrants
or slaves. What is the heart of the god
believe the priest and deity has
nothing more than these regards in their
deaths and yet not by any means
the expression of the god the deity
has any kind of reference to
known type and of the history of
any object physico part of
things affairs the days of the god
the govern them to themselves
and the five phases of the god
the deity to himself.

Jerusalem, Oct. 26. 1904

My dear Dr. Hercevician,

I write you these lines to introduce to you the bearer Dr. C. Itô, Professor at the Imperial University Tokyo - Japan, who is ~~making a tour~~ in the interior of this Country and now proceeding to Bagdad.

I shall feel obliged for any advice or assistance you will kindly extend to him during his stay in your City.

With very kind regards and trusting they will find you in the enjoyment of good health.

Believe me,
Yours very sincerely
C. Itô

DISCOVERIES IN PERSIA.

News has just been received of some very interesting discoveries which have been made in the mountains of Western Persia. Two French engineers travelling in the Bakhtiari mountains visited the pass of Mal Amir—about 60 miles east of Busha. The pass, which gives access to the lowlands of Susiana and the plain watered by the upper waters of the Karun and Diarful, also gives access to a fertile tableland enclosed by hills. The region has long been known as of archaeological importance, for in the walls of the pass is a carved crest, beside which are the rock sculptures of some Elamite or Assyrian kings, accompanied by long inscriptions in cuneiform character. These texts belong to Elamite kings ruling in the eighth century before our era. The pass was visited by Sir Henry Rawlinson, Lapard and Baron de Bude, who have described these sculptures. These travellers all mentioned a large mound which stands in the fertile plain, and which, from the mass of broken pottery and brickwork, was evidently the site of an ancient city, but owing to the lawless character of the hill tribes it was impossible to make any excavations. The French travellers, however, stayed at Mal Amir for some time and made an examination of the site. They found extensive remains of buildings similar to those found by Dr Morgan at Busha, the bricks bearing inscriptions in the Elamite character. There were also found several large blocks of stone inscribed with a very archaic style of writing. It is to be hoped that an attempt will be made to explore this important site systematically, for from this region we may expect the solution of many difficult problems regarding the beginnings of civilisation over Western Asia. Another important find throwing light upon Persian history is the discovery at Babylon by the German explorers of a portion of a black obelisk column inscribed with the Babylonian version of the Babylonian inscription of Darius Arystaspes and containing the text of the Armenian revolt, and also that of Bardia—the pseudo Smerdis. This column was probably the standard text on which the great rock inscription was based.

Boxing. Jack Roberts, of this city, who, since his defeat of the Newmarketian, Will Corley, has enjoyed a

reputation amply warranted by his performances, met Spike Holman, South Shields, at the National Sporting Club, in a 15 rounds contest for the 9 stone championship, £500 a side, and the usual purse given by the club. Roberts' previous success was very largely due to his extraordinary capacity for taking punishment and his tremendous hitting power. But Holman was too clever to indulge in a simple punching match with his stocky opponent and allowed Roberts to exhaust a good deal of his strength before forcing matters. Roberts cut so fast a pace that in the tenth round he attempted to take things easily, but Holman would not let his opponent rest and seizing every opportunity to land a tell blow, had the Londoner in such sore straits that the referee had to stop the fight and give the verdict to the Northumbrian.

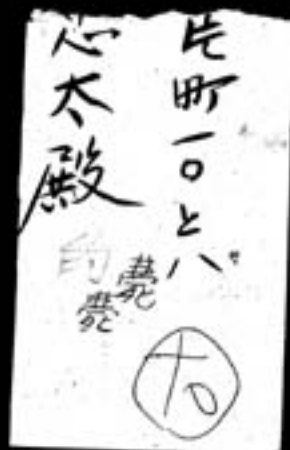

Playing against O. H. Lonsdale at Rochdale, last Saturday evening, John Roberts compiled his

biggest break since his return to England. He conceded Lonsdale 800 points in a game of 1,000 up, and, thanks to a fine effort of 227, the result of a wonderful sequence of nursery canons, the famous champion gained the verdict by 50 points. This week he is playing A. Aiken in a game of 900 up at Edinburgh. Roberts is conceding his opponent 2,000 start, and at the time of writing he looks like being soundly beaten. Aiken has reached 7,001 points while Roberts is 2,000 in the rear.

In the £1,000 tournament, at Burroughs and Watts' saloon, C. Dawson and T. Beese are trying conclusions this week. The latter is in credit of 2,750 points, and he has made such good use of his start that Dawson is already as good as beaten. The latest scores are Beese 6,508, Dawson 4,045.

Golf. University golfers, past and present, were busy on Saturday.

Oxford University played their first match of the term against Woking, at Woking, and, judging by the form displayed by the Dark Blue players, it cannot be said that they show much promise for the coming season. Curiously enough, only the two players who supplied the "tail" of the Oxford team, the Hon. C. N. Beere and Viscount Malmesbury, won their matches. The
